OHIO COALITION FOR THE EDUCATION OF CHILDREN WITH DISABILITIES (OCECD)

"IT'S MY TURN" BOARD GAME

Description: IT'S MY TURN is a game about changing from student to adult learner, worker, and citizen. It was developed by the Ohio Coalition to increase the knowledge about the process of ending a career as a student and beginning a career as an adult learner, worker and citizen. Students ages 14 through 21 who are in a secondary educational setting will benefit from this game.

The object of the game is to complete one full turn around the board as students test their awareness by answering questions about life situations. While moving around the board, players will also be involved in role playing where their participation will earn them money or their non-participation will cost them money. When they arrive at the SUCCESS square they will use the money they have earned to achieve goals that they have selected.

The game can be played by up to four students and a facilitator can be added to read cards, to assist discussion about concepts and to foster role play. However, the facilitator is not required.

IT'S MY TURN is stimulating fun that can be enjoyed again and again. The game changes with every group that plays because each answer is personal to the individual player. Students are challenged on every turn to think about their personal feelings.

To order, simply fill out the order form and start having fun!
