**Are you in need of tools and strategies that you can use to help your child with disabilities safely navigate the important transition from childhood to adulthood?**

Participants will learn basic information they can use to help their son or daughter with a disability understand the physical, emotional, and social changes of puberty and adolescence. Discussion will address strategies that can be used at home to explain puberty, teach a new personal care or social skill to your son or daughter. Participants will also leave the workshop with an action plan listing next steps.
