800-686-2945

As related service providers, Occupational Therapists (OT) and Physical Therapists (PT) are a part of the IEP team but often are not included in transition planning or services. Following an overview of the foundation and importance of Post-Secondary Transition, participants will learn about the role of related service providers and how to enhance the post-secondary transition process for students. Discussions will include resources to support continued learning about post-secondary transition, identifying and creating work-related learning opportunities for students and documentation tips regarding student transition needs and functional life skills.

*PT Hours Approved * OT Hours Pending Approval
