Ohio Coalition for the Education of Children with Disabilities

2021 Annual Report

We believe all children have a right to a meaningful and relevant education.
The mission of the Ohio Coalition for the Education of Children with Disabilities (OCECD) is to endorse and promote efforts to provide appropriate quality education for children and youth with disabilities. We do so in the belief that all children have a right to a meaningful and relevant education. The belief affirms the dignity of each child or youth with disabilities, whose needs are unique and whose needs must be met equally and appropriately.

OCECD is dedicated to ensuring that every child with disabilities is provided a free, appropriate public education. We continually strive to improve the quality of our services for all children and youth with disabilities in Ohio.

Ohio Coalition for the Education of Children with Disabilities
125 Executive Dr., Suite 200 • Marion, OH 43302-3741

Web: www.ocecd.org
Dear Parents, Policymakers, and other Professionals,

I am pleased to present the 2021 Annual Report for the Ohio Coalition for the Education of Children with Disabilities (OCECD). 2021 was another year marked with challenges and opportunities for OCECD, for our families, and for the community at large. Although COVID-19 persisted, we have created new and effective ways of reaching our families and professionals with the Coalition message of supporting families and improving the quality of services for all children and youth with disabilities in Ohio. In the year 2021, OCECD fully operated through remote support to families and professionals - virtual trainings, meetings, and phone calls instead of face-to-face. We have all gained a new understanding about ourselves and our capacity to engage, and grow, so that we can advance in assisting families, as well as professionals. Our wonderful OCECD staff never wavered in their support to our families and professionals during this time, using every technological means to ensure they were able to continue the mission of the Coalition.

For the Coalition, 2021 was a year filled with strong statewide, regional, and local trainings offered by outside presenters, as well as our OCECD staff. Learning opportunities were abundant, including OCECD’s on-demand webinar offerings. Direct support to families also continued unabated. The way of operating for 2020 outlined in my letter last year continued throughout 2021: Our staff used virtual platforms employed in the districts they serve; and conference calls, phone calls, texts, and emails for reaching out to parents. Materials and resource information continued to be provided to families and professionals. Local trainings were still offered to parents via virtual platforms, as well as statewide webinars for parents and professionals.

In the coming pages you will read about the activities and support OCECD provided to parents, family members, students, and professionals during the 2021 year. Our staff had contact with, and provided services to 333,571 parents, family members, professionals, and others. 6,671 individuals attended OCECD training workshops. In 2021, 15,573 individuals reached us through social media posts and engagement. 224,431 page views of the OCECD website this year reveal the Coalition is a known and trusted source of information. 80,647 calls, letters, texts, or emails were processed by OCECD staff, as well. OCECD continued its efforts to support others, despite the persistence of COVID-19.

Crucial to the success of the work of our staff, and the families and professionals they support, was the OCECD Governing Board. In 2021, the Coalition staff were supported by 35 member organizations, individual members, parents, families, and professionals. Collaboration is essential to OCECD’s success, and this group of committed and dedicated individuals allows us to remain strong in our work and assistance to families and professionals, so that every child with disabilities in Ohio is provided a free and appropriate public education.

2021 was a year that presented many challenges for our families, students, professionals, and the society at large. COVID-19 affected not just schools, but also the way we all work, our economy, our personal lives, and more - and our students have experienced all of these facets in the different aspects of their lives. In spite of this, we all remain hopeful for the future, and excited to see what next year will bring. I wish each of you calm and peace of mind as we move forward in this uncertain world. I send you OCECD’s gratitude and our commitment that we are here for you when needed.

Sincerely,

Lisa Hickman
Executive Director, OCECD
Established in 1972, the Ohio Coalition for the Education of Children with Disabilities (OCECD) is a statewide, non-profit organization dedicated to advancing the educational interests of children with disabilities. OCECD promotes efforts to provide appropriate quality education for children and youth with disabilities, and to insure that public policy and school reform efforts always consider best practices for students with disabilities.

OCECD is composed of over 35 parent and professional organizations representing over 50,000 individuals, as well as individual members. Staff across Ohio collaborate with local parent support organizations to offer information, training and support to parents of children with any disability ages birth through 26.

OCECD’s experienced staff, many of whom have children or other family members with disabilities, are available to assist individuals or groups with information about:

- Early intervention for infants and toddlers to age 3
- Preschool special education services for ages 3 through 5
- Family support systems
- Special Education in public and community schools
- Resources for parents and professionals
- Free trainings for parents and professionals in Ohio on educational topics
- Teamwork between family members of children with disabilities and service providers
- Community-based services
- Transition from high school to employment/college in the community

Tools used by OCECD to provide assistance include:

- Phone support
- One-on-one consultation
- Individual presentations and trainings
- Group presentations and training/workshop sessions
- “It’s My Turn” and Goals Planning Success (GPS) are self-determination transition trainings. These student-focused trainings are designed to increase the capacity of youth with disabilities to make choices and to advocate for themselves.
- Bilingual OCECD materials including booklets about Evaluation, IEP, 504, ADHD, Rights, Transition, etc.
- Mentoring 4 Reading Achievement Program (M4RA): 1:1 Reading Mentoring for students reading below grade level
- All About Reading Mentoring Training – train family members/childcare providers how to mentor children in reading
- Quarterly newsletter on various special education topics
- An informational website describing OCECD’s services, schedule of trainings and conferences, resources and links to other helpful special education resources and organizations
- Parent training modules on our website
- Facebook page and Facebook Live presentations on special education topics
- An informational website describing OCECD’s services, schedule of trainings and conferences, resources and links to other helpful special education resources and organizations.

As a state-level organization, OCECD is an important policy development organization deeply committed to working with the state legislature, the Office of the Governor, and state agencies on legislative and policy issues of importance to Ohio’s children with disabilities.

OCECD is a non-profit organization and has 501 (c) 3 tax-exempt status.
OCECD serves multiple audiences, and is at the intersection between Parents, Pupils, Policymakers and Professionals. As a federally funded Parent Training and Information Center, OCECD is responsible for providing information, training and assistance to parents of children with disabilities throughout Ohio.

OCECD has 3 types of members: statewide member organizations, regional member organizations and individual members. Corporate patrons also support the organization.

Statewide Member Organizations: Organizations whose membership and activities encompass the State of Ohio, and whose goals and purposes are harmonious with those of the OCECD, may be Statewide Member Organizations.

Statewide Member Organizations include:
- Ohio Association of County Boards of Developmental Disabilities (OACBDD)
- Ohio Association of Pupil Services Administrators (OAPSA)
- Ohio Educational Service Center Association (OESCA)
- Ohio Occupational Therapy Association (OOTA)
- Ohio School Psychologists Association (OSPA)
- Ohio School Speech Pathology Educational Audiology Coalition (OSSPEAC)
- Ohio Speech-Language-Hearing Association (OSLHA)

Regional Member Organizations: Organizations functioning within the State of Ohio (but not statewide), whose goals and purposes are harmonious with those of OCECD, and the majority of whose members are parents of children and youth with disabilities, persons with disabilities or professionals involved in related areas, may be Regional Member Organizations.

Regional Member Organizations include:
- Achievement Centers for Children
- Allen County Educational Service Center
- Autism Society Central Ohio
- Brown County Educational Service Center
- International Dyslexia Association Central Ohio
- Center for Disability Empowerment
- Central Ohio Region Parent Mentors
- Down Syndrome Association Central Ohio
- Mercer County Educational Service Center
- Milestones Autism Resources
- Montgomery County Educational Service Center
- NAMI Franklin County, Inc.
- North Central Ohio Educational Service Center
- Northwest Ohio Educational Service Center
- Northwest Ohio Parent Mentors
- North Point Educational Service Center
- State Support Team (SST) Region 1
- State Support Team (SST) Region 2
- Warren County Educational Service Center
- Western Buckeye Educational Service Center

In addition to these organizational members, over 400 parent and professional individuals, whose goals and purposes are harmonious with those of OCECD, are full members of OCECD and may attend Governing Board meetings and receive publications and other services.

All members and member organizations support the organization both fiscally and through volunteer efforts.
Governance and Management

OCECD is overseen by a Governing Board composed of representatives of 35 organizations. The Governing Board is the policy making body of OCECD, with each statewide member organization having two representatives, and each regional organization having one representative. Each representative has one vote. An Executive Committee comprised of eleven members elected by the Governing Board reviews and directs fiscal and personnel matters (see Figure 1).

The following individuals served on the OCECD Executive Committee in 2021:

Jack Brownley, President
William Bagnola, Vice-President
Cathy Ruiz, Past President
Christine France, Secretary
Frances Bauer Morrow, Treasurer
Donna Stelzer, Statewide Organization
Judith Dunham, Regional Organization
Ginny Bryan, Parent Representative
Mia Buchwald Gelles, Parent Representative
Lisa Hickman, OCECD
Marbella Cáceres, OCECD

Figure 1.
In addition to its governance structure, OCECD is managed on a daily basis by an Executive Director. Additionally, the Coalition is served by experienced staff comprised of parents, family members of children or adults with disabilities, educators, and medical personnel.

OCECD’s experienced staff members are available to assist individuals or groups with such areas as:

Public Policy in Education – OCECD serves a voice for professionals, families and, most importantly, children with disabilities at the federal, state and local levels.

Educational Resources and Informational Materials – OCECD provides the latest information and resources for families and professionals through the OCECD website, training and issue-related seminars, and more.

Family Support Services – OCECD’s experienced staff provides a broad array of family support services from disability identification and intervention to one-on-one consultation, trainings and community based services and transition.

2021 Policy and Program Analysis, Education and Advocacy

OCECD supports federal, state, and local educational policies and practices that improve outcomes for students with disabilities.

Federal Level – OCECD followed efforts at the federal level on the following educational issues, providing input and information regarding how these affected Ohio parents and students with disabilities:

- Mandatory full funding of IDEA
- Parents’ rights
- Improved educational results
- Early Childhood Education
- School Discipline
- Pandemic response

State Level – During the past year, OCECD closely followed state education policy priorities, providing information and input on bills and the impact on students with disabilities.
On January 9, 2021, Governor Mike DeWine signed a set of laws strengthening dyslexia supports for Ohio’s children. The bill was passed at the end of the previous General Assembly. The new dyslexia support laws establish dyslexia screening measures (ORC 3323.251), professional development for identifying dyslexia and instructing students with dyslexia (ORC 3319.077), a multi-sensory structured literacy certification process for teachers (ORC 3319.078) and the Ohio Dyslexia Committee (ORC 3323.25).

The following is a summary of the new set of laws:

- Requires the Ohio Department of Education to establish the Ohio Dyslexia Committee consisting of 11 members;
- Requires the Ohio Dyslexia Committee to develop a dyslexia guidebook for screening, intervention and remediation for children with dyslexia or displaying dyslexic characteristics and tendencies;
- Requires the Ohio Dyslexia Committee to prescribe the number of clock hours of dyslexia-related professional development required for teachers;
- Permits the Ohio Dyslexia Committee to make recommendations regarding ratios of students to teachers who have received certification in identifying and addressing dyslexia, the school personnel who should receive the certification and whether professional development requirements should include completing a practicum;
- Requires the Department, in collaboration with the Ohio Dyslexia Committee, to identify screening and intervention measures that evaluate the literacy skills of students using a multi-sensory structured literacy program;
- Requires school districts and other public schools to administer annual dyslexia screenings beginning in the 2022-2023 school year;
- Phases in over three years dyslexia-related professional development requirements for public school teachers;
- Requires school districts and other public schools, beginning in the 2022-2023 school year, to establish a multi-sensory structured literacy certification process for teachers.

These law changes did not impact state funding levels for schools or school districts but will have implications for spending at the local level as districts implement the new dyslexia instruction and related requirements.
Legislative policy in 2021 continued to be impacted by the state’s response to the COVID-19 pandemic, but also included passage of the FY 2022-2023 biennial state operating budget, H.B. 110.

H.B. 110, as enacted, provides state and federal General Revenue Fund (GRF) appropriations totaling $34.84 billion for FY 2022, a decrease of 2.0% from FY 2021 actual spending, and $39.24 billion for FY 2023, an increase of 12.6% over FY 2022. Medicaid (48.8%) and K-12 Education (27.0%) together make up 75.8% of the biennial total. K-12 education receives $9.926 billion (+6%) in FY 2022 and $10.08 billion (+1.53%) in FY 2023.

Though it resulted in only marginal FY 2022-2023 funding increases, the budget provides a new model of foundation aid funding that is responsive to longstanding concerns regarding the adequacy and equity of Ohio’s system of funding public schools.
Special Education and the FY 2022-2023 State Operating Budget. The FY 2022-2023 state budget provided fiscal continuity for the Ohio Department of Education and for K-12 education, generally.

After year upon year of an Ohio school funding formula that was largely overridden by a host of school funding guarantees that provided most districts with stable, albeit marginal, growth in state funding, CY 2021 brought a new day for school funding with the introduction and passage of a partially phased-in Ohio Fair Schools Plan.

This plan calls for a six-year phase-in and funds most of the first two years (FY 2022-2023) of this transitional approach to a new funding model. The key components of this transitional plan – a plan that will cost an estimated $2 billion in additional state aid (in FY 2021 dollars) when it is fully phased in – are outlined below. Taken together, these school funding formula changes, when fully phased-in, would increase per pupil base funding (state/local) from approximately $6,000 in FY 2021 to approximately $7,200.

- Establishes an inputs-based methodology for determining the per pupil base cost. Ohio has not had a base cost methodology in place since FY 2011.

- This cost methodology is based on stipulated student-teacher ratios, minimum staffing levels and actual costs.

- Replaces the State Share Index that determines the state/local share of school funding with a substantially more equitable state/local share mechanism that uses both school district property wealth and personal income and not just the former. The net fiscal impact of this change is to direct relatively more state funding to lower income school districts.

- Revises categorical aid, including special education and Disadvantaged Pupil Impact Aid (DPIA). It is noteworthy that DPIA funding was not even partially phased-in until FY 2023 and was phased-in at a lower percentage (14% and not 16.7%) than the rest of the new formula. Importantly special education funding on a per pupil basis was increased approximately 10% and the additional funding was converted back to a multiplier or “weights”.

![Image of students in a classroom](image-url)
• Provides direct (as opposed to funding through students’ resident school districts’ state aid) funding for community (charter) schools, scholarship programs, STEM Schools and open enrollment.

• Eliminates the “gain cap” in the funding formula that effectively overrode the formula by limiting increases in state aid to school districts. In FY 2019, this provision meant that 163 of Ohio’s 609 school districts had their formula-based aid reduced relative to what it would otherwise be via the funding formula by an aggregate $479 million.

• Transitional Aid Guarantee will buffer districts against what would otherwise be state funding losses; however, this bridge funding will gradually decline as the Fair Schools Plan is phased-in fully.

There are a number of other school funding related changes beyond revisions to the funding formula that include but are not limited to the following:

• Funding for school bus purchase ($50 million);

• Special education transportation (simplifies calculation, increases minimum state share, and eliminates proration)

• Special Education Catastrophic Cost Reimbursement (withholds 10% of special education funding)

Importantly, the FY 2022-2023 state operating budget also includes funding for mandated educational cost studies, including one to better determine the true costs of providing students with disabilities special education services. The special education cost study is being conducted by AIR (the American Institutes for Research). These studies are underway and are to be completed no later than December 31, 2022. This timeframe means that the studies will be completed in time to inform school funding decisions that will take place as part of writing the FY 2024-2025 state operating budget, which will be introduced in early CY 2023 and go into effect on July 1, 2023.

Lastly, there were a number of significant policy changes related to school choice including those programs that benefit students with disabilities. House Bill 110 included a significant expansion of school choice programs and the way those programs are funded. More specifically, funding of choice programs will no longer occur as deducts from district foundation aid, but rather as direct state funding for charter schools as well as traditional EdChoice Scholarship Program, Autism Scholarship Program, Jon Peterson Special Needs Scholarship Program, and the Cleveland Scholarship Program. Additionally, the budget increased the maximum scholarship amount for all programs.
134th General Assembly (2021-2022) Education Policy Proposals. Over the first year of the 134th General Assembly, the Ohio legislature has passed 7 bills, including the biennial state operating budget, that have a direct impact on primary and secondary education and early childhood education.

Those education-related bills passed and enacted in 2021 are as follows:

- **House Bill 67** - WAIVE STATE TESTING REQUIREMENTS (Koehler, K) - To waive state testing requirements for the 2020-2021 school year, to require the Department of Education to seek a waiver from federal testing requirements, and to declare an emergency. SIGNED BY GOVERNOR; effective immediately 3/20/2021

- **House Bill 110** - OPERATING BUDGET (Oelslager, S) - To make operating appropriations for the biennium beginning July 1, 2021, and ending June 30, 2023, to levy taxes, and to provide authorization and conditions for the operation of state programs. SIGNED BY GOVERNOR; effective 7/1/21

- **House Bill 170** - SCHOOL FINANCIAL ASSISTANCE (Bird, A) - To provide assistance to schools and other entities in response to the COVID-19 pandemic and to make an appropriation. SIGNED BY GOVERNOR; effective immediately 6/20/2021

- **House Bill 82** - ELIMINATE REQUIRED HIGH SCHOOL GRADUATION ASSESSMENT (Cross, J) - With regard to nationally standardized college admissions assessment and to revise the state report card and accountability systems. SIGNED BY GOVERNOR; effective 9/30/21

- **House Bill 244** - TECH BASED EDUCATION/PROHIBIT VACCINE MANDATES (White, A) - Regarding technology-based educational opportunities for, and the enrollment of, military children; regarding public schools, state institutions of higher education, and prohibitions on mandatory vaccinations and discrimination; and regarding the authority of the Ohio Department of Health over matters of quarantine and isolation. SIGNED BY GOVERNOR; effective 10/13/21

- **Senate Bill 1** - FINANCIAL LITERACY EDUCATION, SUBSTITUTE TEACHER REQUIREMENTS (Wilson, S) - Relating to teaching financial literacy in high school, to provide discretion regarding educational requirements of substitute teachers for the 2021-2022 school year, and to declare an emergency. SIGNED BY GOVERNOR; effective 10/28/21

- **Senate Bill 229** - BLENDED LEARNING MODEL - EDUCATION (Blessing III, L) - Regarding blended or remote learning models for the 2021-2022 school year, the state report card, emergency management plans, withdrawal of untested students from internet - or computer-based schools, the Third Grade Reading Guarantee, high school financial literacy instruction, Educational Choice and Cleveland Scholarship payments, operating subsidies for educational service centers, and to declare an emergency. SIGNED BY GOVERNOR; effective 12/14/21
Early Childhood and School Age Trainings – Designed for Families of Children Ages Birth to 26

**A Cultural Perspective on Special Education** – Participants will gain an understanding about various cultures, and how to communicate effectively.

**A Guide for Parents and Educators of Deaf or Hearing Impaired Children** – Participants will learn the different types of hearing loss and how they affect individuals in their educational and social environments. Early detection screening, audiograms and technology used to identify and support those with hearing loss will be presented. Parents will learn strategies to work with their deaf/hearing impaired children and suggestions for accommodations that can be written into their child’s IEP.

**All About Reading** – Participants will learn the basic foundational steps needed to learn to read. Rhyme, rhythm, pictures, phonemic awareness are discussed and applied with a hands-on approach. Story telling techniques will be demonstrated. How to recognize if a child is having difficulty reading and what some of the warning signs of a possible disability will also be discussed.

**All About Reading Mentoring** – Participants will gain a better understanding and knowledge of the foundation of literacy skills and be trained to use evidence-based materials to mentor their child or student. 30-minute mentoring session through role play and learning to use materials from M4RA.org and Readinga-z.com websites.

**Autism Awareness** – Participants will be informed about the current diagnostic criteria for the diagnosis of Autism Spectrum Disorder (ASD). Discussion will address Individual Education Program (IEP) goals along with strategies and possible methodologies for educating children identified on the Autistic Spectrum. A comparison between services received through the Autism Scholarship Program and public school IEP programs also will be discussed.

**Children Transitioning from Early Intervention to Preschool: What Parents Need to Know, Part 1** – Participants will be provided with information designed to prepare families for the change that takes place as their child leaves early intervention services for preschool services, upon turning three years of age. An overview of the differences between early intervention and preschool services, transition planning, timelines, evaluation process, and tips to help families have a smooth transition.

**Children Transitioning from Early Intervention to Preschool: What Parents Need to Know, Part 2** – Participants will learn about the eligibility determination process for preschool special education services, the Individualized Education Program (IEP) for a preschooler, and the information considered when determining a child’s placement in the least restrictive environment.

**Dispute Resolution** – Exploring Options to Resolve Concerns with your Child’s School District - Participants will be provided with basic information about Ohio’s Dispute Resolution Processes. Both formal and informal options will be reviewed. Information will be provided about Facilitation, Mediation, and Administrative Review. Basic differences between a state complaint and a due process complaint will be explored.

**Enriching the Learning Environment** – Participants will develop an awareness of the need and importance of a stimulating, rich environment for children. Discussion will include Howard Gardner’s Eight Intelligences Theory, with examples of how to develop the various intelligences in children. (Written for parents of children ages 0 – 9)

**IEP Clinics** – Parents bring their child’s IEP for an OCECD representative to review. Pre-registration appointments are scheduled to ensure sufficient time to review and discuss questions and concerns parents may have about their child’s IEP. Parents will leave with a better understanding of their child’s IEP and a plan on how to work with their schools in developing future IEPs.

**Individual Development** – Participants will review the developmental stages of a child’s growth, with common characteristics and traits being discussed. Stages of brain development and how to stimulate dendrite growth are addressed along with the emotional and temperamental needs of children.

**It’s My Turn** – It’s My Turn training is a self-determination curriculum for students with disabilities in middle school through high school. Students will learn about themselves, the choices they have, becoming better self-advocates and how to be better prepared to enter the adult world as they transition from school to the community. Training is usually a 2- or 3-day event, on-site in the host school district building.

**Mentoring 4 Reading Achievement (M4RA)** – M4RA trains teachers and administrators to implement 1:1 reading mentoring for all students reading below a beginning 6th grade reading level. M4RA offers 1 full day of a free reading mentoring instruction session, 2 Resource Guide Books per school, and ongoing professional development. All public schools, private schools and organizations are eligible.

**My Child’s Rights to FAPE & A System for Organizing Records** – This make-it and take-it workshop will assist participants in organizing records and documentation that pertain to their child’s education and health needs. Discussion of parents’ rights under IDEA 2004 and how the documentation can be used to assist parents in developing an IEP and how to work with other agencies will be presented.
**Parent/Professional Communication** – Participants will review basic communication methods, techniques, and styles to utilize when communicating with parents and professionals. Hands-on activities will aid participants in gaining an understanding of the various types of communication, as well as developing listening skills and how they relate to good communication skills.

**Parent’s Rights in the Special Education Process** – Participants will gain a functional knowledge of parent’s rights under IDEA 2004. The six components of FAPE will be discussed and explained. Timelines under IDEA, as well as, the evaluation, referral and testing process will be covered. Participants also will learn the basic facts about mediation, ODE complaint procedures, resolution meetings and due process procedures.

**Positive Behavioral Interventions and IDEA 2004: Opportunities for Parenting and Teaching** – Participants will be informed of basic IDEA concepts and FAPE, discuss challenging behaviors, learn the fundamentals of addressing behaviors in IEPs, positive behavior services, supports and interventions. Parents and professionals will gain an understanding of what may cause undesirable behaviors, how to manage behaviors and interventions that really work to help make the child happier and more productive at home and in the learning environment.

**Postsecondary Transition** – Participants will gain an understanding of the importance of transition planning for youth with special needs. Discussion will focus on the requirements under IDEA 2004 for writing a transition plan, when the process should begin, timelines, and who is involved in writing the transition plan.

**Reducing Barriers Through Advocacy – Tips for Parents** – Participants will learn strategies that will enable them to become confident advocates for their child’s special education needs. The parent’s role before, during, and after the IEP meeting will be explored. Suggestions for recordkeeping and for effectively communicating with school district personnel will be discussed in detail.

**Section 504** – Participants will gain a functional knowledge of parents’ rights under Section 504 of the Rehabilitation Act of 1973 and how this can assist children with disabilities in the educational environment. Participants will review the history behind Section 504, learn the requirements of writing a Section 504 Accommodation Plan, and learn the differences between an IEP and a Section 504 Accommodation Plan.

**Services and Supports** – Participants will gain an awareness of services and supports that are available to families of children with disabilities from local schools and from state and local agencies and how to determine what services and supports their child may need by developing an individualized education program (IEP).

**Taking the Sting Out of Behavior** – Participants will learn how to work with children to eliminate inappropriate behaviors and how to teach children skills necessary to self-monitor their actions. The difference between punishment and discipline will be discussed. The various types of behaviors and the techniques and methods for working with these behaviors will be presented.

**The Bull Stops Here: Understanding Bullying and What You Can Do to Help** – Participants will gain an understanding of the dynamics of bullying. The various types of bullying and common characteristics of children who are targeted and children who exhibit bullying behaviors will be explored. There will be discussion about ways to help a child who is a target, children who are bystanders, and the child who is exhibiting bully behavior. Cooperative approaches for parents and educators to address and prevent bullying will be discussed.

**Understanding AD/HD** – Participants will gain an understanding of the history of AD/HD and some statistics on the prevalence of AD/HD in the general population. Discussion about who is qualified to diagnose AD/HD, how it affects children in school and life, and various techniques and accommodations to support children at home and at school will be presented.

**Understanding the Evaluation Process Under IDEA 2004** – Participants will work through a step-by-step process to gain an understanding of the special education evaluation process under IDEA 2004. Participants will learn commonly used terminology. They will learn what an evaluation is, how to request an evaluation, and how to use the information included in the Evaluation Team Report. Frequently used evaluation tools will be discussed.

**Understanding and Writing an IEP** – Participants will gain an understanding of the IEP components and the documentation necessary to develop an IEP. Discussion will focus on who is required to be involved in the development of an IEP and what the parent and school roles are in the process. Each section of the IEP will be reviewed with an explanation of what information is required by IDEA 2004 and what needs to be recorded in the various IEP sections.

**Who We Are and What We Do** – Participants will gain an understanding of the history of the Ohio Coalition for the Education of Children with Disabilities and what services and supports are offered to parents and professionals throughout the State of Ohio. Available OCECD trainings, materials and publications also are addressed.

If you would like to schedule a training, contact:

OCECD, 125 Executive Dr., Suite 200, Marion, OH 43302 • 1-844-382-5452
1-740-382-5452 • FAX: 1-740-383-6421
Program Activities and Accomplishments

In an effort to actively guide development of its programs and services, OCECD is involved in data collection efforts that yielded the following results over the past year:

In 2021, OCECD had contact, including direct contact, and provided services to 333,571 parents, professionals and others.

- 6,671 Individuals attended OCECD training workshops – 1,719 were parents, 4,729 were professionals, and 223 were students.
- 80,647 Calls, letters, texts or e-mails were processed by OCECD – 54,636 were parents, 26,011 were professionals or others.
- 224,431 Page views of the OCECD website this year reveal the Coalition is a known and trusted source of information.
- 15,573 Families reached through social media posts and engagement.
- 6,249 Views, Likes, Follows of the OCECD Social Media pages.

OCECD staff has also attended 621 IEP/IFSP/Section 504 meetings, 53 Facilitated IEP meetings, 1,046 meetings with parents, 2,243 meetings with professionals, and 18 Mediation meetings, 7 Manifestation Determinations, 65 Resolutions, and 9 Suspension/Expulsion meetings with families.

Additionally, OCECD provided consultative services to individuals and families in the following disability categories:

This information is also displayed in the following chart (page 16), which highlights the individuals served by disability category.
Support Services

Support is provided to parents and families of children with disabilities throughout the state in the following ways:

- Information and trainings to help in the understanding of disabilities
- Early Intervention information and resources concerning infants and preschoolers
- Family support systems
- One-on-one consultation
- Special education information and training
- Connections/referrals with community-based services and agencies
- Transition trainings and information from middle school/high school to employment/college in the community
- Teamwork between persons with disabilities, their families, and service providers

To deliver many of these services, OCECD often collaborates with an extensive network of parent mentors to assist families. In Ohio, there are 76 Parent Mentor Projects, which provide services to districts or Educational Service Centers across the state. Parent Mentors, who are experienced parents of a child or children with a disability, are employed by public educational entities through a grant by the Ohio Department of Education. Within the 76 funded projects, there are 89 Parent Mentors who are hired to support a specific district/s or Educational Service Center/s. Two Parent Mentors from the Ohio School for the Deaf and the Ohio State School for the Blind serve all 88 counties. Parent Mentors receive technical support from The Ohio State University’s Center on Education and Training for Employment (CETE). In addition to their other responsibilities, Parent Mentors also serve as liaisons between families and school district personnel to foster positive working relationships between parents and educators. OCECD works in collaboration with the network of Parent Mentors and school district representatives by providing resources/information and professional development when requested. As allied entities, with the same goal of helping parents, we collaborate when opportunities arise.

(Information in this report does not include the many services provided throughout the year by our network of Parent Mentors. This report reflects only services provided directly by OCECD.)
PLANO is an empowerment group for any Latino/Spanish speaking family in the state of Ohio who has a child with special needs or is at risk. Parents take part in trainings and workshops and are provided information about resources and supports that are available in their community. This assists them to better advocate for their children in the special education process.

AMIGAS is an encouragement and support group for any Latino woman who has children with disabilities, or at risk. The purpose of this group is to help women to be aware of, and bring down, the stigma of mental health conditions and to provide training and support, strengthening their self-esteem, resulting in them being better equipped to help their children and themselves. This group has been a collaboration between the Ohio Coalition for the Education of Children with Disabilities and the NAMI chapter of Franklin County since 2010.

Because of the ongoing Covid situation, the format of the meetings was altered to reflect these changes. The groups have been merged into one and meet virtually. The combined groups meet on Zoom every Tuesday and Thursday, with the choice of 10 am or 7 pm, to accommodate the schedules of those who want to participate. The focus of these sessions is on training, support, building connections with their community agencies, and helping parents improve their special education knowledge, self-esteem, motivation, organization, and empowerment. This results in them becoming better equipped to help their children and improving their parenting skills, while at the same time helping them to be more self-assertive and engaged in their children’s education to improve the quality of their lives. Over 137 people were served through these meetings last year.

These meetings focus on providing the multicultural community with information, education, and motivation to understand themselves, their family dynamics, and their community, and thus be better prepared to help their children succeed in life. The meetings consist of talks followed by discussions with the participants, as well as hands-on workshops in which the participants learn to put into practice practical applications in their lives. Those who participate in these meetings feel empowered to not only support their children, but are better equipped to deal with other life challenges.
The Horn/Walter /Burley Awards are presented in honor of two outstanding Ohio educators, the late Raymond A. Horn and the late Franklin B. Walter, who supported and encouraged teachers and their students with disabilities throughout their long careers as educational leaders in Ohio. In 2018, Margaret Burley’s name was added to the awards, to honor her outstanding work as Director of OCECD. For the past several years, OCECD has collaborated with partner organizations, Ohio School Boards Association (OSBA), Ohio Association of County Boards of Developmental Disabilities (OACBDD), Buckeye Association of School Administrators (BASA), and Ohio Educational Service Center Association (OESCA). The Horn/Walter/Burley 2020 & 2021 in-person awards banquets were cancelled due to Covid. Their awards were mailed to the SSTs to present to their nominees. All recipients received their photo/scripts by mail.

The Franklin B. Walter Award is given to one educator or one educator team from each of the sixteen State Support Teams in Ohio who has made extraordinary contributions to the education of students with disabilities. This award is given in honor of the late Dr. Franklin B. Walter, Superintendent of Public Instruction from 1977 until 1991, longer than any other state superintendent in Ohio history. With over 50 years of service as a teacher and administrator, Dr. Walter’s leadership is evident in many of Ohio’s quality educational initiatives and programs. Among these is the development of the nation’s first statewide plan for children with disabilities.

The R. A. Horn Award is presented to one exemplary special education student from each of Ohio’s sixteen State Support Team regions. This award was established twenty-six years ago by the Ohio Department of Education in honor of the late Dr. Raymond A. Horn, Assistant Superintendent of Public Instruction Emeritus. This prestigious award recognizes students’ remarkable performance. Acknowledged as a national leader in the field of special education, Dr. Horn devoted more than 60 years of service to improving the quality of life and learning for students with disabilities. Dr. Horn left behind a legacy and a challenge to all of us to ensure that every student with a disability be given the respect and the opportunities to which each one is entitled.

The Margaret M. Burley Outstanding Parent Award is given to a parent who has made a significant impact in the area of special needs through unwavering dedication and support for families. Margaret Burley is Executive Director Emeritus of the Ohio Coalition for the Education of Children with Disabilities, having served as Executive Director for 39 years. Since 1979, Margaret expanded the organization from five parent and professional organizations, working out of her home with no money or staff to assist her, to an over $2.5 million budget. Under her leadership, the Coalition was able to attract funding through state and federal entities, as well as donations from numerous individuals and organizations. Margaret directed public policy and research for OCECD, and is known nationally for her work in the special education field since 1972. Tom, her son, the youngest of four children, has multiple disabilities from Congenital Rubella Syndrome.

OCECD Financial Profile for Calendar Year 2021

OCECD is a 501(c)(3) tax-exempt non-profit organization and serves as a federally funded Parent Training and Information Center.

The organization receives its funding support through four primary sources: a) membership dues; b) investment income; c) public funds as grants/contracts; and d) other contributions, gifts, private grants, and/or donations. This section of the annual report provides a review of the revenue and expenditures for the Coalition for calendar 2021 – January 1, 2021 to December 31, 2021 – as reported in its Form 990 federal tax filing for 2021.

In calendar year 2021, OCECD generated $1,946,146 in revenue, with $1,888,664 coming from government grants. In addition to grant funds, the Coalition received $11,765 in membership dues and $16,934 in investment income. A breakdown of the calendar year 2021 revenue sources is provided in the table below.

<table>
<thead>
<tr>
<th>Revenue Source</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Membership Dues</td>
<td>$11,765</td>
</tr>
<tr>
<td>Investment Income</td>
<td>$16,934</td>
</tr>
<tr>
<td>Government Grants/Contracts</td>
<td>$1,888,664</td>
</tr>
<tr>
<td>All Other Contributions, Gifts, Grants, and Similar</td>
<td>$8,544</td>
</tr>
<tr>
<td>Amounts not in above</td>
<td></td>
</tr>
<tr>
<td>Asset Net Gain</td>
<td>$9,558</td>
</tr>
<tr>
<td>Miscellaneous Revenue</td>
<td>$3,244</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td><strong>$1,946,146</strong></td>
</tr>
</tbody>
</table>

Government Grants/Contracts accounted for 97% of the total revenue. Membership Dues contributed 1% and investment income contributed 1%. All other contributions, gifts, grants, and similar amounts not in above contributed less than 1%. Asset net gain and miscellaneous revenue also contributed less than 1%.
Calendar Year 2021 Expenditure Profile

Consistent with IRS Form 990, the Coalition’s expenditures all relate to the purchase of goods and services (including staff) that advance the mission of OCECD including:

- Meeting the requirements of the federal grant dollars used by the Coalition
- Delivery of member services
- Advancing an education and advocacy agenda
- Administrative purposes

The Coalition spends 97% of the dollars it receives meeting the requirements of the grants pursuant to the contracts and the law including, among other things, trainings, conferences, printing and publications. Additionally, OCECD provides membership and support services, including resource materials and advocacy services. The breakdown of the Coalition’s 2021 calendar year expenses is provided in greater detail below. As a federal grantee, an audit is performed by HW & Co., CPA & Advisors as required by the Single Audit, Office of Budget and Management, Washington D.C. for federal grantees receiving more than $750,000 per year.

**TOTAL** $1,856,529

**Year End Net Assets** $2,474,560

As a charitable organization with 501(c)(3) designation, OCECD is required pursuant to the Ohio Revised Code to file an annual financial report with the Ohio Attorney General. In meeting this requirement, OCECD files an online annual report with the Ohio Attorney General’s Charitable Ohio site.
OCECD’s 2021 Financial Resources Profile

Outlined below is a breakdown by project of the Coalition’s funds:

**U.S. Department of Education**
- Parent Training and Information Center .................................................. $663,523
- Passed Through a Collaboration with PACER Center
  - Project Launch ......................................................................................... $12,117

**Passed Through the Ohio Department of Education, Office for Exceptional Children**
- SPDG-State Personnel Development Grant .................................................. $25,363
- IDEA-Parent, Community, and Educator Collaboration ............................... $776,552
- Parent Mentor Oversight & Professional Development ............................... $510,734

**Passed Through the Ohio Department of Health**
- Health Improvement and Wellness, Maternal & Child Health
  - Infant Hearing ........................................................................................ $48,164

**Private Funding** ......................................................................................... $5,756

**Private Funding Breakdown:**
- Horn/Walter/Burley Awards ................................................................. $2,899
- Debby Ambroza Memorial Funds .......................................................... $100
- NAMI .................................................................................................. $1,500
- Donations to OCECD ........................................................................... $1,039
- Sale of Publications .............................................................................. $218

**Miscellaneous** ......................................................................................... $753

**Total 2021 Coalition Funds** ................................................................. $2,042,962
OCECD held a number of grants in 2021 that allowed us to provide programming and supports to Ohio parents, families, students and professionals. A few are highlighted in the pages below.

**IDEA Parent, Community, and Educator Collaboration** – The Ohio Coalition for the Education of Children with Disabilities (OCECD) staff provide support services to parents and families of children with a disability. They respond to inquiries from school districts, the general public and specifically to families of children with a disability to provide information, support, and assistance regarding special education programs and services. Our staff answer telephone inquiries, meet one-on-one with families as necessary, provide guidance in understanding IDEA, the Ohio Operating Standards, and the provision of services available in the local school district.

Additionally, OCECD staff collaborate with Ohio’s 16 State Support Teams (SSTs) to coordinate efforts to establish a consistent level and means of services. We also provide a bridge for communication between parents, schools and the State Support Team Family Consultants.

OCECD staff provide support services to families of students with a disability through individualized, personalized information review, communication with school district staff, attendance at school team meetings - as necessary, if invited by the parent or school staff, and dissemination of information related to both Parent Mentor services and special education programs.

**Ohio Department of Health** – OCECD works with the Ohio Department of Health through the Joint Commission on Infant Hearing, an early detection and intervention program. OCECD contacts all families of infants who have not passed their initial Hearing Screening performed at the hospital. Our staff connects with each family by phone to make sure that they have scheduled a follow-up appointment with an audiologist. Another aspect of this work is to encourage the families of children who have been diagnosed as hearing impaired to give their permission for referral into Part C Early Intervention Services, which will provide the expertise and assistance available to them to address their needs and those of their child. This early connection with local resources gives families assurance that there will be someone who will be able to guide them through the ongoing process of support for their child’s needs. In addition, OCECD provides financial support for a family who is currently enrolled in Ohio’s Part C program, with a child who is younger than three and is deaf or hard of hearing, to attend the Annual Early Hearing Detection and Intervention Conference. Conference keynote and session topics are presented that share the latest and newest information with families. This experience additionally gives the family an opportunity to meet similar families and the professionals in this field.

**NAMI of Franklin County Support of Multicultural Families** – OCECD has a long record of a vibrant and strong support of Multicultural Families. One component of our support in Franklin County is the ongoing collaborative relationship that we have with NAMI of Franklin County. NAMI provides funds for the support of speakers and events benefitting the members of the Hispanic Support Group, PLANEO. This is a women’s empowerment group for Spanish speaking mothers who have children with special needs. The purpose of this group is to help women improve their self-esteem, motivation, and organization, resulting in them being better equipped to help their children with special needs. Through the weekly PLANEO meetings, our participants have seen the importance of self-esteem and motivation in mental health. Working with NAMI to help with the mental health needs of these women is an excellent way to serve this population, since this combines NAMI’s focus of improving mental health with OCECD’s support of families of children with special needs.
Parent Training and Information (PTI) Center for Ohio – OCECD has set forth as its mission to endorse and promote efforts to provide appropriate quality education for children and youth with disabilities. We do this in the belief that all children have the right to a meaningful and relevant education. The Ohio Coalition staff are dedicated to ensuring that every child with disabilities is provided a free appropriate public education. With this in mind, OCECD continually strives to improve the quality of services for all children and youth with disabilities in Ohio. The Ohio Coalition’s vision is to safeguard that all students with disabilities are: prepared for kindergarten, ready to be actively engaged in learning, and able to graduate equipped to move on to a career or on to college and then a career.

We are committed to providing the best training and information to a variety of audiences, including underserved parents, low-income parents, parents with limited English proficiency, parents of incarcerated youth with disabilities, and parents with disabilities. At this time, Ohio schools are in a period of redesign of curricular and instructional processes. Taking into account the specific needs of students with disabilities is central to the success of such efforts. The ultimate goal of this project is to encourage educational system redesigns and productivity improvements by an extensive review of evidenced-based practices, with the goal being the identification of the most current findings of successful school districts and the initiation of state-level implementation. Leadership at the district, school, and classroom levels emerge as the most powerful driver of significant changes to improve student outcomes, especially for minority and underserved populations. Our staff consistently engaged in outreach services to support school and parent leaders during the course of this grant period.

Complementing what Ohio’s SSTs are doing for school personnel, the Ohio Coalition is providing comparable services to both students and parents of children with disabilities who are 14 and older. OCECD’s Self Advocacy Trainings, It’s My Turn (IMT) and Goals, Planning, Success (GPS), are transition trainings that instructs teens with regard to their rights and what they need in their transition plans in order to progress to their postsecondary life. Postsecondary training is geared toward parents so that they understand what their child’s transition rights are and that the process begins at age 14. This encourages all parties involved to look ahead to the future for not only typical students, but also students with disabilities. The identification of interests and goals gives a focal point to complete a framework in order to reach those goals.

Another issue that the Ohio Coalition is investigating is evidence-based education practices for transition-aged youth with low literacy. To meet the identified needs of low-literacy youth, OCECD is using its Mentoring 4 Reading Achievement Program (M4RA). This one-on-one reading mentoring program uses an evidence-based, online guided reading series to improve reading for children and youth reading below a 6th grade reading level.

The connection between juvenile justice and special education in Ohio is both sobering and substantial. There are over three times as many special education students in Ohio’s Department of Youth Services facilities as there are in the general school population. OCECD strives to bring services to students through reading mentoring and through our transition trainings.

In addition to the low-literacy rates of Ohio’s youth, the Ohio’s College-and Career-Ready Commitment [www.achieve.org/Ohio] reports that far too many students either drop out of high school or graduate unprepared for postsecondary success. This closes doors and limits options and opportunities. This is particularly true for minority and low-income students. The Ohio Coalition adds the additional focus of students with disabilities.

The ultimate goal of OCECD is to assist all parents, especially those within traditionally under-represented groups, so that their children will: (a) meet developmental and functional goals and the challenging academic achievement standards that have been established for all children; (b) be prepared to lead productive, independent adult lives to the maximum extent possible.
2021 OCECD PROGRAMS FOR PARENTS AND SCHOOLS

Project Launch – OCECD is one of several state partners that collaborate with the PACER Center to increase access to information about transition for students, parents, families, and professionals. We participate in collaborative information and resource sharing meetings alongside other states that are Project Launch partners. OCECD develops transition related products that are of benefit to Ohio students, parents, and professionals. Individual assistance is provided to those seeking information including families, families from diverse communities, professionals, and youth in regard to transition and/or related services. Trainings on transition or employment are presented to students, including students who are at-risk. Additional trainings on transition are available to parents, family members, and professionals, including parents and families in underserved communities.

State Professional Development Grant (SPDG) – The goal of the United States Department of Education, Office of Special Education Program’s (OSEP) funding program is to assist state education agencies and their partners to reform early intervention, educational, and transitional service systems to improve results for students with disabilities. To achieve this goal, states receive funds from OSEP through State Personnel Development Grants (SPDG), which may be used to improve systems of professional development, technical assistance, and/or dissemination of knowledge about best practices across districts. The Ohio Department of Education (the Department), Office for Exceptional Children’s SPDG is aligned with Ohio’s Plan to Raise Literacy Achievement to improve early language and literacy outcomes for all students, including those with disabilities, English learners, and other at-risk learners. SPDG activities will provide systemic supports to increase and extend evidence-based early language and literacy instruction. Ohio’s SPDG also aims to increase partnerships with institutions of higher education, professional associations, family organizations, and others. Collectively, these efforts will build capacity at the regional, district, and building levels to support language and literacy learning for all students. The Department is contracting with the Ohio Coalition for the Education of Children with Disabilities (OCECD) Parent Training and Information Center (PTI) to increase access to resources for families of students with reading difficulties. The resulting website stems from a collaborative effort between ODE, OEC and OCECD, and is available at Reading Tips for Families. Please visit this site as it is a resource for all children and families in Ohio.
It’s My Turn GPS Training  
Goals Planning Success  
A Self-Determination Curriculum for Students with Disabilities  

It’s My Turn GPS training is a self-determination curriculum for students with disabilities in middle school through high school. This training was designed for students who struggle in the learning process, possibly needing extra time to learn skills to assist them in deciding upon and reaching their goals for life after high school.

This was developed by the Ohio Coalition for the Education of Children with Disabilities (OCECD) through funding from the Ohio Rehabilitation Services Commission now known as Opportunities for Ohioans with Disabilities (OOD) and currently supported by the Ohio Department of Education, Office for Exceptional Children, Project Launch, IDEA funds, and the Federally Funded Parent Training and Information (PTI) Center grant.

The workshops include four sections:

A. **Vision** - Hopes and Dreams, Self-advocacy, Problem Solving  
B. **Transition Plan** - IDEA, IEP, 504, ADA  
C. **Building Skills** - Postsecondary Education and Training, Employment, Independent Living  
D. **Future Planning** - Personal Goal Setting, Backward Planning, Resources  

At the conclusion of the training, the district has the option of hosting a parent night for the community, school, and parents to celebrate the students' achievements. The evening will include a collaborative focus on the student’s future, student presentations, and information from service providers. The community, school district, parents, and students will develop a working collaborative relationship focused on each student’s future.

We developed this training to make transitioning easier for students and to help them become better self-advocates. Due to COVID-19 in Spring 2020, we began transitioning GPS along with the IMT training, into virtual format. This means we will be able to offer more options in the future so more students can benefit.
VIRTUAL LEARNING 2021

Covid-19 Legal Issues for Students with Disabilities
9:30AM-12:00PM
January 20, 2021
ONLINE TRAINING WITH DR. PATRICK ZIMBA

REGISTER TODAY!

This webinar will provide a systematic and current snapshot
of the applicable legal framework, issues, and activity
surrounding students with disabilities as a result of the
pandemic. The legal framework includes the federal
and Ohio Department of Education guidance con-
nected with the IDEA and Section 504. The legal
issues include with particular prominence “inclusion”
and failure-to-implement FAPE claims. The legal
activity consists of (a) due process hearing filings and
decisions, (b) state complaint procedures filings and
decisions, and (c) lawsuits and court decisions. The
season will include the opportunity for question-and-
answer interaction via Zoom.

Navigating the Educational Setting During the COVID-19 Pandemic:
Advocating for Students who are Deaf and Hard of Hearing

About This Training
The COVID-19 pandemic has changed the educational systems as we have known them. Teachers, students, families, and parents have
impacted the changes. Parents of deaf and hard of hearing children are left wondering how to ensure their child continues to receive an
appropriate education. This presentation will review Federal and state COVID-19 educational guidance that parents and schools have received. We
will also review the special education and disability laws that can ensure FAPE and a variety of COVID-19 accommodation options and
communication accessibility across various educational settings. This presentation provides families with information they need to advocate for
their deaf or hard of hearing student and is inclusive of all communication modalities and languages.

About the Speaker
Tabitha Behnken, MS, is the mother of three children, all of whom are deaf. She has worked with families for over 15 years, providing
resources, guidance, support to families of children who are deaf or hard of hearing. She has experienced supporting families of children
who are deaf, hard of hearing, deafblind, and deaf and hard of hearing. Tabitha is the director of Ohio Hands & Voices and also is a national educational
advocate trainer for Hands & Voices. When not working, you’ll find her at home caring for her plants, pets, or listening to true crime podcasts.

NAMI ENDING THE SILENCE

ABOUT THE PRESENTATION
This is a 50-minute presentation for parents and other primary caregivers of adolescents to help raise awareness of mental health conditions. The goal of this presentation is to educate families about the early warning signs of mental illness and how early recognition, support and treatment may be keys to positive outcomes. The presentation includes:

- Warning signs
- Facts and statistics
- How to approach and help one’s child

Additionally, the presentation includes personal testimony from a young adult living with a mental health condition and his/her journey to recovery.

Educate families about the warning signs of mental illness.

Processing the Pandemic
Series of 5 webinars.

About This Event
Even in normal times, millions of children — as many as 1 in 5 — struggle with mental health or learning challenges. After a year of pandemic lockdowns, social distancing and remote schooling, many more are in distress. Participants will hear from professionals in the Behavioral Health and Mental Health field as well as students and school teams.

Please join us for 5 Webinars!
CEUs are available for $25.00; please select the CEU you’re interested in during registration. You will be contacted after the webinar to setup payment.

Visit the event website for more info.

Family Support At-A-Glance

In 2021, OCECD continued to build upon its efforts to ensure that all Ohio children with disabilities receive a free and appropriate public education by providing critical information, professional development, training and advocacy by:

- Providing services to 333,571 parents, professionals, and others
- Attending 621 IEP/IFSP/Section 504 meetings
- Attending 53 Facilitated IEP meetings
- Attending 1046 meetings with parents and 2243 meetings with professionals
- Attending 18 Mediation meetings, 7 Manifestation Determinations, 65 Resolutions, and 9 Suspension/Expulsion meetings on behalf of families of children with disabilities.

In the coming year and beyond, OCECD will continue to work hard to ensure that all Ohio children with special needs receive a free and appropriate public education in an environment that enables them to reach their highest potential. Due to COVID-19, we have and will continue to innovate, adjust, and institute new ways to connect and provide services to the parents, families, young children, and students they serve. A particular emphasis will be placed on students making successful transitions into their community through employment or postsecondary education and training.
