Hosted by the Owens Community College Department  
of Teacher Education and Human Services

**Participants will learn the following concepts:**

- Relevant research, and the prevalence and forms of trauma
- The impact of trauma on the body's stress response, physical health, brain development, behaviors, learning and social-emotional well-being
- The connection between the brain and the stress response system
- TIC and mindfulness applicable strategies
- Benefits if individuals and organizations use a TIC lens and mindfulness strategies
- How individuals and organizations can effectively support youth in becoming resilient
- A framework for creating and maintaining a TIC Culture
- Potential changes to policies and practices
- Application of concepts using real-world stories
