

SPONSORED BY OHIO COALITION FOR THE EDUCATION
OF CHILDREN WITH DISABILITIES

Many students with autism and other disabilities have difficulty modulating the information that comes through their senses. These students, in either craving sensory input or avoiding it, may have poorly controlled behavior.

This training will focus on the theory of Sensory Modulation and how to best support individuals who struggle managing the sensory information within the school environment.

DON'T MISS THIS FREE CONFERENCE WITH SUSAN AEBKER!

Ms. Susan Aebker, DHS, OTR/L is an occupational therapist with Montgomery County Educational Service Center on the Autism/Low Incidence Coaching Team. She has worked as an OT for 23 years and has worked for 12 years with the pediatric population in particular. She is a graduate of The Ohio State University with a Bachelor of Science degree in Occupational Therapy and the University of Indianapolis with a Masters and Doctorate in Health Science with emphasis on Sensory Modulation Issues.

October 15, 2015

**Miami Valley Regional Center
4801 Springfield Street, Dayton, Ohio 45431-1084**

9:00 a.m. to 12:00 p.m.

***“Sensory Modulation
and Behavior: How to
Help Children with
Disabilities Manage
Their Sensory Needs”***
