

SPONSORED BY OHIO COALITION FOR THE EDUCATION OF CHILDREN WITH DISABILITIES

Many students with autism and other disabilities have difficulty modulating the information that comes through their senses. These students, in either craving sensory input or avoiding it, may have poorly controlled behavior.

This training will focus on the theory of Sensory Modulation and how to best support individuals who struggle managing the sensory information within the school environment.

DON'T MISS THIS FREE CONFERENCE WITH DR. SUSAN AEBKER!

Dr. Susan Aebker, DHS, OTR/L is a graduate of the Ohio State University with a Bachelor of Science degree in Occupational Therapy and the University of Indianapolis with a Masters and Doctorate in Health Science with emphasis on Sensory Modulation. She is an Associate Professor at Kettering College in their occupational therapy doctoral program. She is also a consultant with the Autism Coaching Team with Montgomery County ESC and Combs Educational Consulting.
