"Using iPads with Individuals with Autism Spectrum Disorders"

Session Descriptions:

Beginner AAC: Learn the basics of introducing an Alternative Augmentative Communication (AAC) system with a new or beginning AAC user

Apps for Literacy: From reading to writing, this session will offer ideas and solutions for using the iPad to increase literacy skills.

Funding: This breakout sessions will offer ideas, tips and resources for finding funding sources for all types of added costs associated with raising a child with special needs. E.g. Summer camps, alternative therapies.

Visual Schedules: Basic visual schedules to advanced time management systems, this session is a must for everyone. Visuals benefit ALL and you will see a great sampling of the best Visual Schedule apps out there!

Advanced AACs: This session will preview the major AAC apps and offer the basics of how to add/delete buttons as well as describe the intended user for each app.

Apps to Motivate: Find fun and exciting apps for every kiddo. In this session, you will see a demonstration of dozens of apps that will be sure to motivate any individual!

Math on the iPad: See dozens of samples of apps for math, from counting, money/coins, and sorting to more advanced mathematics using manipulatives and more.
