CONNECT WITH US

This training is designed for parents and professionals and will overview bullying, special considerations needed when addressing bullying in youth with disabilities, and resources for youth who are bullied, or who bully others.

Participants will gain an understanding of the dynamics of bullying. The various types of bullying and common characteristics of children who are targeted and children who exhibit bullying behaviors will be explored. Strategies to develop self-advocacy skills for the student being bullied, to develop peer advocacy skills for bystanders to speak out on behalf of others, and to modify the behavior of the child exhibiting the bullying behavior will be presented. Cooperative approaches for parents and educators to address and prevent bullying will be discussed.
