CONNECT WITH US

This training is designed for parents and will overview the Individualized Education Program (IEP) and how parents can be effective partners in the IEP process.

Participants will gain an understanding of the IEP components and the documentation necessary to develop an IEP. Discussion will focus on who is required to be involved in the development of an IEP and what the parent and school roles are in the process. Each section of the IEP will be reviewed with an explanation of what information is required by IDEA 2004 and what needs to be recorded in the various IEP sections.
